## Internet Connection Sharing Quick Setup Guide

For HP IPAQ Pocket PC Models: H1940, H1945, H2210, H2215, H5450, H5455, H5550, H5555 also works with other Pocket PCs using Widcomm BTCE ver.1.3.x

Use with Belkin Bluetooth PC Adapters: F8T001, F8T002 and F8T003

# Note: Please be sure to enable Internet Connection Sharing on your Windows PC before you begin this guide. Please refer to your Windows Help for more information on Internet Connection Sharing.

### **SECTION 1: Pairing your Pocket PC to your Computer**

**Step 1:** Tap on the **Bluetooth icon** located in the lower right corner of the Today Screen. Select Bluetooth Manager.

Note: Be sure that your Bluetooth Radio is turned ON.

**Step 2:** Tap on the **Tools** located in the menu bar located at the bottom of your screen. Then select **Paired Devices**.

Tap New > Connect! to access other devices via Bluetooth

Step 3: Tap on the Ad	d button.

### **SECTION 2: Configuring your Network Connection**

Step 1: Go to My Bluetooth Places and Click on "View My Bluetooth Places (Windows XP)" or double click on "My Device" (for Windows 98, ME or 2K).

Step 2: Right click on My Bluetooth Network Access and select Properties.

Step 3: Make sure there is a check mark next to Startup Automatically.

From the drop-down menu select the following service, "Allow other devices to access the Internet/LAN via this computer." Then click the Apply button to save the changes.
