Updating the Router (Model F5D5230-4)

The Process below assumes that you have already downloaded or have been e-mailed the Firmware update. Make sure you know the location of the Firmware file you downloaded. The instructions below do not cover helping you locate the file. We recommend that the file be saved on the desktop or in a folder that is easy to find.

- 1. Download or Copy the firmware update file to a location on your computer where you can easily locate it later.
- 2. Launch your Browser and type 192.168.2.1 to get to the router login page. Type "Admin" next to "User Name". Leave "Password Blank". Click "Enter" to get to the Router's home page.
