HDTV ANTENNA

Model no. AV48001

User Manual

Introduction

HDTV Antenna

Thank you for choosing the PureAV HDTV Antenna. The HDTV Antenna is designed to deliver sharp, clear, high-definition signal reception. It is specially designed for receiving over-the-air digital broadcasts*, and will also provide exceptional analog reception. Before installing, please read this User Manual carefully.

*Compatibility: The HDTV Antenna is specially designed for TVs with a built-in HDTV tuner or with set-top HDTV receivers.

HDTV Antenna

(1) Coaxial Cable

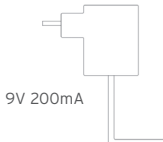

(2) Wall-Mount
Screws

Desk
Bracket

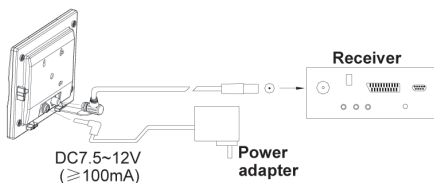

Mounting
Bracket

AC Adapter

Installation

- Step 1.** Remove all contents from package.
- Step 2.** Attach “L-shaped” end of coaxial cable to the HDTV Antenna, and connect the other end of the coaxial cable to your HDTV/HDTV receiver.
- Step 3.** Adjust HDTV Antenna for maximum reception. Please refer to your television’s owner’s manual for channel-setup information.

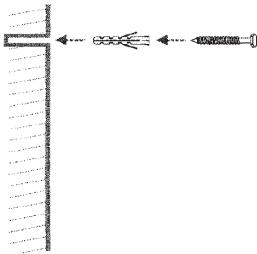

For optimal reception:

1. Do not place the HDTV Antenna near potential sources of interference (e.g., large metal objects, microwaves, A/C units, etc.).
2. Place the HDTV Antenna near windows and pointed toward broadcast towers. Please visit www.antennaweb.org for broadcast-tower locations.

Optional Wall-Mount Installation

- Step 1.** Check location for best HDTV reception.
- Step 2.** Mark position on wall
- Step 3.** Drill 30mm into wall using 6mm drill bit. Clean hole.
- Step 4.** Push drywall anchor into hole. (Drywall anchor not included.)

- Step 5.** Place screws into anchor until 10mm is still visible.

- Step 6.** Attach wall-mount bracket and hook the standing unit of the HDTV Antenna.

Features:

- Wideband reception
- 20 dB gain flat
- Band-stop filter against GSM noise
- Excellent reception for digital terrestrial
- Sensitive electronic circuit for minimum noise
- Direct power supply (Does not require power insertion)
- Flat design for desktop or wall-mounting installation
- Indoor use

Specifications:

Model: AV48001	HDTV Antenna
Frequency Range	174~230MHz & 470~862MHz
Amplifier Gain	174~230MHz & 470~862MHz 20 \pm 3 dB
Frequency Flatness	\pm 2 dB
Directional Characters	20 dB
Antenna Output Connector Type	F-(f) Connector
Power Consumption	40mA
Power Adapter	9V 200mA
Dimensions (L x W x H)	5.90 x 2.49 x 4.92 in.
Weight	Approx. 0.750 lbs.
