

The Belkin Hi-Speed USB 2.0 4-Port Ultra-Mini Hub provides four downstream USB ports that offer easy Plug-and-Play connectivity to your USB 1.1 and USB 2.0 devices. This compact hub is lightweight and does not require a power supply. It's a perfect travel companion, designed to easily tuck into the pockets of a laptop bag. The Hi-Speed USB 2.0 4-Port Ultra-Mini Hub is the ideal way to connect USB devices to your computer.

Installation Instructions:

- Step 1:** Connect the Hub to your computer. Using the included USB cable, connect the flat end (USB-A connector) on the Hub to your computer's USB port. If your computer is powered on, the Hub should be immediately detected and configured.
- Step 2:** Attach your devices to the Hub.
- Step 3:** When connecting a full-speed device to the Hub, make sure the device (e.g., a printer or scanner) is using its own power supply.
