User Manual
TuneCast™ Universal

Introduction

The innovative TuneCast Universal from Belkin is designed to power and transmit audio from your iPod or MP3 player to your car stereo. Please review this User Manual carefully so that you can be sure you'll get the most from your TuneCast Universal, virtually anywhere you go.

Setup Instructions

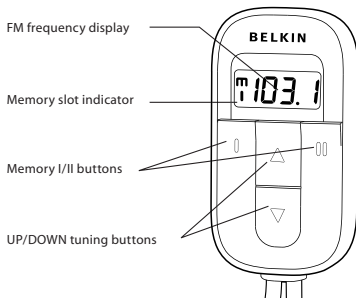

- 1. For AUDIO:** Plug the 3.5mm headphone jack into your iPod or MP3 player and the cigarette-lighter adapter into your car's cigarette-lighter outlet.
- 2. For MOUNTING:** Use multi-mount socket and mount with adhesive backing to attach your TuneCast Universal to any smooth surface.
- 3. Optimizing the Sound Quality of your TuneCast Universal**
A variety of car radio and antenna configurations are available, and you may optimize the sound quality in your car based on the location of your TuneCast Universal (for example, placing the TuneCast Universal on the center console may yield better performance than other locations within your vehicle).
- 4.** Tune your car stereo frequency to a channel with a weak broadcast signal. The ideal channel is one that is not picking up a signal from a radio station, or is doing so weakly. To identify the best available frequencies in your area, visit www.belkin.com/mybestfm.
- 5.** Press the **↑** or **↓** button on the TuneCast Universal to select the transmission frequency chosen in step 3 on your car for broadcast. Press and hold either button for fast-forward or backward tuning.

Setup Instructions

6. Your TuneCast Universal can memorize up to two different frequencies so you can recall them quickly later.
 - a. Select the desired frequency using the \uparrow or \downarrow buttons.
 - b. Press and hold the M1 or M2 button for two seconds. When the M1 or M2 icon blinks, release the button.
7. Adjust the volume of your FM radio to the desired listening level.*

**Due to characteristics of FM transmission, you will experience better sound quality by adjusting the volume on your car stereo when necessary, and by leaving your iPod volume at a medium level.*
