BELKIN®

Desktop Internet Phone
for Skype™

User Guide

F1PP010EN-SK

SAFETY INSTRUCTIONS

Please read the following instructions carefully before starting to use the F1PP010EN-SK.

• Always read the safety instructions carefully.

• Keep this User Guide for future reference.

• Keep the unit away from humidity.

• Place the unit on a reliable flat surface before setting it up.

• If any of the following situations arise, have the unit checked by a service technician:

     – The unit has been exposed to moisture.

     – The unit has been dropped and damaged.

     – The unit has obvious signs of breakage.

• Do not place the basic unit in a damp room at a distance of less than 1.5m from a water source. Keep water away from the telephone.

• Do not use the telephone in environments where there is a risk of explosions.

• Maintain the telephone in an environment-friendly manner.

Note: Skype does not allow emergency calls. Such calls should be made with a traditional telephone or a mobile phone.

INTRODUCTION

Thank you for purchasing the Belkin Desktop Internet Phone for Skype F1PP010EN-SK. This phone is designed for making calls over the Internet, using the Skype® software. The Belkin Desktop Internet Phone for Skype (the phone) enables you to use your normal Skype account to make Skype calls without using a computer.

**Note:** Please make sure you have a working Internet connection.

Belkin recommends connecting the F1PP010EN-SK to an available LAN port on a router.

Package Contents

- F1PP010EN-SK Belkin Desktop Internet Phone for Skype

- One handset with curl cord

- One detachable stand

- One Ethernet cable

- One power adapter

- User Manual on CD-ROM

- Quick Installation Guide

HARDWARE INSTALLATION

Follow the steps below to install the Desktop Internet Phone for Skype.

1. Mount the stand to the rear of the phone as shown.

**2.** Connect the handset to the handset (RJ9) jack as shown.

HARDWARE INSTALLATION

3. Connect one end of the supplied Ethernet cable to the Ethernet (RJ45) jack on the phone. Connect the other end to the network router.

4. Connect one end of the power adapter to the phone's power jack. Plug the power adapter into a main outlet.
SETTING UP THE PHONE

When the phone is powered up for the first time, you need to select the language, accept the agreement, sign in to Skype, or create a new Skype account.

Select Language

- Press the navigation button up or down to select the language of the user interface.

- Press the left soft button to select.

Accept Agreement

- Press the navigation button down to read the agreement.

- Press the left soft button to accept.

Sign In to Skype

You can configure your phone with an existing Skype account, or you can register a new account.

Log In with an Existing Account

- Use the navigation button to select **Sign in to Skype.**

- Press the left soft button to select.

- Enter your Skype name using the alphanumeric keypad.
- Press the left soft button to continue.

- Enter your Skype password using the alphanumeric keypad.
- Press the left soft button to continue.

- Press the left soft button to save the Skype name and the password in the phone.
- Press the right soft button if you don't want to save the password.

Note: When you select to save the Skype name and the password for automatic sign in, the phone automatically signs in to the account you entered every time it powers up.

After you select to save the account information for automatic sign in, you will be signed in and taken to the main idle screen.

If you select not to save the account information, you will go to the main idle screen.
Create New Account

- Use the navigation button to select **Create new account.**
- Press the left soft button to select.

- Enter a unique Skype name of between 6 and 32 characters using the alphanumeric keypad.
- Press the left soft button to continue.

- Enter a password of between 4 and 20 characters.
- Press the left soft button to continue.

- Enter the password again.
- Press the left soft button to continue.
**Note:** Please keep your Skype name and password safe.

MAIN SCREEN

The following screen is displayed after you log in to Skype successfully. Press the left soft button to enter the **Menu**, or press the right soft button to enter **Contacts**.
MENU SCREEN

On the main display, press the left soft button to enter the Menu. Use the navigation button to select options, and press the left soft button to select.
- **Contacts:** Browse your Skype contacts.
- **History:** View your missed calls, incoming and outgoing calls, voicemail, and contact requests.
- **Status:** Change your Skype status (Offline, Online, Skype Me, Away, Not Available, Do Not Disturb, Invisible, Switch User, or Sign Out).
- **Add contact:** Add Skype users or SkypeOut numbers to your contact list.
- **Search:** Search for Skype users.
- **Services:** Displays information about your Skype credit balance, your SkypeIn account, and your Skype Voicemail.

- **Settings:** Change Time and Date, Tones, Network Settings, Call Divert, Display Properties, etc.

CONTACTS

Your Skype contacts are stored in your Skype account. When you log in with an existing Skype account, all your contacts will be automatically downloaded to the contact list on the phone.
Call a Skype Contact

- From the main display, press the right soft button to open the contacts list or press the left soft button to enter the Menu and select **Contacts**.
- A list of your Skype contacts appears.
- Press the left soft button to select **Options**.
- Use the navigation button to select **Call**.
- Press the left soft button to select.

- Lift the handset and press 📞 button.
- The call will be made.
- To end the call, hang up the handset and press 📵 button.

Notes:

- If you do not lift the handset, the phone will automatically go to hands-free mode.
- You can also make calls without entering the Options menu. Select a contact from your contact list and press 📞 button to call.
CONTACTS

Send Voicemail

Use this option to send a voicemail message to the selected contact.

- From the main display, press the right soft button to open the contacts list or enter the Menu and select **Contacts**.

- A list of your Skype contacts appears.

- Press the left soft button to select **Options**.

- Use the navigation button to select **Send Voicemail**.

- Press the left soft button to select.

View Profile

- Go to **Contacts**, use the navigation button to select the contact whose profile you want to view.

- Press the left soft button to select **Options**.

- Use the navigation button to select **View Profile**.

- Press the left soft button to select.

- Use the navigation button to browse the user information of the contact.

Advanced Options

The Advanced options menu enables you to rename, remove, block/unblock, or add a contact.
- Go to **Contacts**, use the navigation button to select a contact to view.
- Press the left soft button to select **Options**.

- Use the navigation button to select **Advanced**.
- Press the left soft button to continue.
Rename a Contact

- Use the navigation button to select **Rename** in Advanced options.
- Press the left soft button to continue.

- Enter a new name for the contact using the alphanumeric keypad.
- Press the left soft button to confirm.

Remove a Contact

- Use the navigation button to select **Remove** in Advanced options.
- Press the left soft button to continue.
- You can select to remove and block the contact, or remove the contact only.
CONTACTS

Block/Unblock a Contact

- Use the navigation button to select **Block/unblock** in Advanced options.

- Press the left soft button to continue.

- You can select to block or unblock the selected contact.
Request Contact Details

- Use the navigation button to select **Request details** in Advanced options.

- Press the left soft button to continue.

- You can select a contact and send a text message as a request to the user to view his/her status or profile.

Add a Contact

- Use the navigation button to select **Add a contact** in Advanced options.

- Press the left soft button to continue.

- Use the navigation button to select to add a contact by **Skype name** or **Phone number**.

- Press the left soft button to select.

Firmware Page Options

Advanced users can log in to the firmware page of the Belkin Desktop Internet Phone for Skype and can also manually update the firmware of the phone by selecting and uploading the newer firmware file. Users can also change the firmware page login password in the firmware page.

• Log in to the firmware page by typing the IP address of the Desktop Internet Phone for Skype in the URL address bar and pressing return.

• A window will pop up with a login prompt for a Skype name and password. The default Skype name is "admin", and the default password is blank. Press the login button to display the firmware page.

Firmware Upgrade

Advanced users can also upgrade the firmware of the phone by downloading it from the Belkin technical support website and then manually uploading the firmware file onto the phone.
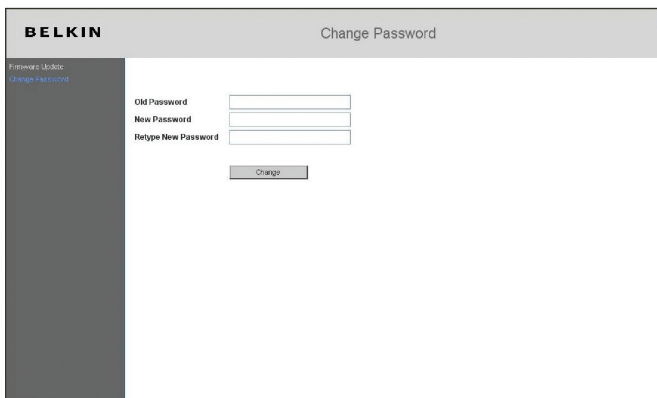

• Click on the "Browse" button to select the new firmware file that you want to upload.

• Click on the "Update" button to upgrade the firmware of the Desktop Internet Phone for Skype. The phone will reboot after the firmware has been uploaded onto the phone.
Firmware Page Login Password Change

Users can also change the firmware page login password.

• Type in the Old Password

• Type in the New Password

• Retype the New Password

• Click on the "Change" button.
