BELKIN®
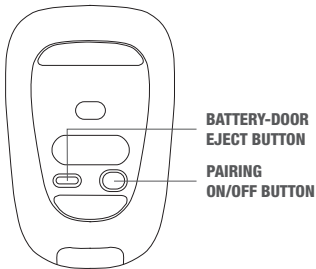

Wireless Comfort Mouse
Quick Installation Guide

Getting Started:

1. Eject the battery-door compartment by pressing the battery-door release button located on the bottom of the Mouse.
2. Place the two AAA batteries into the compartment.
3. Gently push the compartment back into the Mouse until you hear a click.
4. Plug the USB dongle into the USB port of your desktop or laptop computer, and the LED light on the dongle will turn on.
5. Turn the Mouse on with the on/off button on the underside of the Mouse.

BATTERY-DOOR EJECT BUTTON

PAIRING ON/OFF BUTTON

Once the USB dongle is plugged into a USB port and the Mouse is turned on, you are ready to go!

Troubleshooting:

If the Mouse is not working, it may need to be synchronized with the USB dongle. To synchronize, please follow the instructions below:

1. Make sure the Mouse is within 4–5 feet of the laptop during the synchronization process.
2. Press and hold the button on the USB dongle. At the same time, press the ON/OFF button on the bottom of the Mouse.
3. Once the red LED light on the bottom of the Mouse begins to blink, the Mouse is successfully paired.

Carrying the Mouse with your Laptop:

1. Plug the USB dongle into an available port on your laptop.
2. Securely attach the Mouse to the dongle by lining up the elevated surface of the USB dongle to the rectangular cutout on the bottom of the Mouse.
